

HardieBacker® ProGrid™ Cement Board for Wet Areas

Single Score

Easy to Snap

Lighter Weight

Recessed Fastener Pattern

Superior Tile Bond Strength

New HardieBacker® ProGrid™ Cement Board for walls and wet areas is manufactured by James Hardie Building Products. HardieBacker ProGrid cement board is the latest innovation in backer boards and delivers the ultimate in mold and mildew resistance. Its durable proprietary cement formulation makes it the ideal choice for all wet area applications.

HardieBacker boards are the #1 selling brand of backerboard in America. With the addition of the new HardieBacker® ProGrid™ Cement Board the best just got better. With exceptional durability, HardieBacker Cement boards have more compressive and flexural strength than any backerboard in the market. Unlike glass mesh boards which contain messy aggregate, it won't scratch porcelain or enamel surfaces.

HardieBacker ProGrid Cement board passes both ASTM G21 and D3273 mold tests with a perfect score. HardieBacker Cement Boards contain no gypsum or paper facing material.

What makes HardieBacker® ProGrid™ Cement Board Even Better?

- Improved WaterResistance
- Superior Mold and Mildew Resistance
- Superior Tile Bond Strength
- Lighter Weight
- Single Score and Snap
- Recessed Fastener Pattern
