

Nascor NJ Series

Features and Benefits

NJ10: 9-¹/₂"

NJ12: 11-⁷/₈"

Features

Benefits

- | | |
|----------------------------------|------------------------------------------------|
| 1) Vertical solid wood flange | Back and toe nailing, cross bracing, multi-ply |
| 2) Simple spanning | No stamped engineered drawings required |
| 3) Use regular 2x_ hangers | No expensive hard to find hangers |
| 4) Use as a rim board | No proprietary rim products needed |
| 5) Use around stair openings | Less LVL, more cost effective |
| 6) Stocked like dimension lumber | No cutting, no waste, in stock item |
| 7) Makes a great roof rafter | Light and strong, long lengths available |
| 8) No culling, no crowns | Predictable & Consistent 100 % Usable |
| 9) Spans | Spans up to 20' 2" at L/480 |
| 10) Price | Competitively priced vs. dimension lumber |

Nascor NJ Series, the easiest, most cost effective floor joist and roof rafter system on the market!
