IRON WOODS

HARDWOOD DECKING & SIDING

Iron Woods® Ipe Decking

Iron Woods Ipe is a Brazilian species recognized for its unrivaled strength, beauty, and resistance to decay. Ipe is a top performing timber for both commercial and residential applications and is often specified by architects for its strength and durability in harsh elements.

Iron Woods Ipe is a premium grade hardwood featuring 100% clear heartwood. It is available in a variety of decking and dimensional lumber sizes.

Iron Woods® Garapa Gold Decking

Iron Woods Garapa is a durable, well performing alternative to Ipe. Garapa is more affordable option with similar strength and durability characteristics as Ipe. It offers an attractive, honey-golden brown color that will darken slightly with exposure to UV light.

Iron Woods Garapa Gold is a premium grade hardwood featuring 100% clear heartwood. It is available in a variety of decking and dimensional lumber sizes.

Iron Woods® Cumaru Decking

Iron Woods Cumaru is a South American species featuring a slight reddish brown tone that is renowned for its durability and strength. Cumaru remains as the species of choice for boardwalks, bridges, and commercial projects requiring heavy timber dimensions.

Iron Woods Cumaru is a premium grade hardwood featuring 100% clear heartwood. It is available in a variety of decking and dimensional lumber sizes.

Iron Woods® Deck Tile and Pedestal System

Deck tiles are an ideal solution for roof decks, patios, balconies, walkways, gardens, and more. Made from Ipe or FSC certified Itauba, they can be installed on a variety of surfaces and elevation changes using our integrated pedestal options.

Iron Woods® Vanish Rainscreen

Iron Woods Vanish Rainscreen cladding brings a new found elegance and state of the art design to commercial and residential building and construction.

The Vanish Rainscreen siding profile and clip design provides horizontal and vertical ventilation to promote drainage and drying of the exterior wall system. The Vanish System also eliminates the appearance of exposed fasteners and maintains the aesthetic beauty of the wood finish.

Beach House Shake®

The authentic composite shingle.

Beach House Shake will look like freshly milled or gently weathered Western Red or Eastern White cedar for decades after its been installed with no deterioration and no upkeep, guaranteed by our 20-year "Beautiful Freedom" limited warranty.

TandoShake™

The original and most iconic shake on the market.

Tando offers the broadest range of profiles with wood grain textures that mimic the true hand crafted appearance of wood shakes. Choose from a wide palette of popular colors that add instant curb appeal to any home.

TandoStone®

Premium Exterior Siding Panels

The #1 brand of composite stone with its unique Tando TruGrit™ texture gives the feel and low-gloss look homeowners desire.

Rigid panels that install fast and easily with standard siding tools.

The high tech composite construction of TandoStone make it impervious to moisture, allowing installation at ground level and in any weather.
