

DOUGLAS FIR GUTTERS

Douglas Fir gutters are best known for their durability, dense grain structure, and strength. In addition, the Boston pattern supplied by Coastal Forest Products features historical accuracy, traditional beauty, and is available in three dimensional options with continuous lengths up to forty feet.

Grade: "GUTTER" - Pieces of this grade are of sound wood and are watertight. Pieces are clear or have only minor and unimportant characteristics such as: medium stained sapwood. Medium seasoning checks. Heavy torn or raised grain. Medium pitch streaks. Very light skips. Light Warp. Three 1" sound tight knots or their equivalent. Four medium pockets or their equivalent.

PRODUCT SPECIFICATIONS
