- ✓ Pre-primed for exceptional paint adhesion
- ✓ 14 standard colors
- ✓ Custom colors available
- ✓ Color matched caulking & touch-up paint available

BUILT ON LP® SMARTSIDE®

LP SmartSide brand is one of the fastest growing brands of siding materials in the US. All LP SmartSide products are treated to the core through their proprietary SmartGuard process. With four components of protection, this process adds strength and helps LP products withstand impact, freeze-thaw cycles, high humidity, fungal decay, termites and more.

- 16' lengths may mean fewer seams and less waste to haul off the site
- Cuts and works with standard woodworking tools
- Weighs less and resists breakage better in storage and handling
- Handles moisture better than fiber cement alternative
- SmartGuard four component protection (resins, overlay, waxes and zinc borate)
- A 50-year prorated limited warranty with a 5 year 100% labor and material replacement warranty on substrate

PRECISION COATED WITH PPG MACHINE APPLIED COATINGS

Quality Wood Priming applies DuraColor IM 100% acrylic latex coatings to exacting standards in a factory controlled environment with the ideal level of temperature and humidity.

- 15-year limited finish warranty against excessive fade, peel, flaking and chalk wash down*
- Desirable lower gloss, eggshell sheen
- Excellent paint adhesion, mar resistance and color retention
- Powerful UV protection
- Outstanding flexibility of coating that does not crack under extreme pressure

*See actual warranties for complete details. Labor warranty prorated after year 7.

LP® SMARTSIDE VERTICAL SIDING

LP® Vertical Siding helps create a versatile, charming and traditional aesthetic. The LP® SmartGuard® process provides added protection from the elements, helping your style look great for years to come. Choose a cedar texture finish to match your design preference.

- 16" width x 3/8" thickness
- 16' lengths minimizes horizontal joints
- Treated engineered wood strand substrate
- Available in cedar texture
- Pre-primed for exceptional paint adhesion
- Custom Color matching is available
- Not rated for structural use

VERTICAL SIDING	LENGTH	ACTUAL WIDTH	MAXIMUM THICKNESS
Cedar Texture	16' (192")	15.94"	.315"

ADD LP® SMARTSIDE TRIM TO GET THE BOARD AND BATTEN LOOK

When used together, LP® Smartside vertical siding and trim boards create a classic "farmhouse" appearance that is easy to install and built to last.

- Two width choices; 2" & 3" nominal
- Available in cedar texture
- Pre-primed for exceptional paint adhesion
- Custom Color matching is available

TRIM	LENGTH	ACTUAL WIDTH	MAXIMUM THICKNESS
Primed Cedar Texture	16' (192")	1.5"	.625"
	16' (192")	2.5"	.625"

A STRONG WARRANTY FOR TOTAL PEACE OF MIND.
