## PRECISION COATED WITH PPG MACHINE-APPLIED COATINGS. EXTRAORDINARY SELECTION AND EXTREME DURABILITY.

That's what you can expect when specifying pre-finished, ACRE high-performance siding and trim products from Coastal. PPG DuraColor™ IM 100% acrylic latex coatings are applied to exacting standards in a factory controlled environment with the ideal level of temperature and humidity.

- › 8 standard factory applied paint colors (two coats)  
Custom colors also available upon request
- › PPG 15-year limited finish warranty against excessive fade, peel, and flaking
- › Desirable lower gloss, eggshell sheen, excellent paint adhesion, mar resistance and color retention
- › Powerful UV protection to help minimize color fade and heat retention
- › Color matched caulking and touch-up paint available
